

September 10, 2011

We recently had the pleasure of having Ann speak at the 2011 Ideal Home Show Private Preshow Event held by the NKBA Chapter.

The presentation was well presented with numerous handouts that will help us remember and apply the knowledge we attained. The presentation kept everyone's interest, was very colorful, and very professionally done. I had numerous comments afterwards from the attendees that although they had been to several presentations about the use of color in kitchens and baths, this was by far the most interesting and useful .

I highly recommend Ann's classes, as well as Ann herself!
